Company Profile

Longcai Advanced Materials is a purpose-led science-based company in powder coating resins and specialty resins. Longcai is driving innovation to create sustainable value for all of our partners.

The company is situated on the east coast of China, with two production sites in Yantai and Weihai, covering an area of 295,000 square meters in total.

Longcai delivers raw materials solutions for powder coating under the **Longcester®** brand, catering to the industry's needs for TGIC-curing, HAA-curing, Hybrid polyester resins, PU resins, fluorocarbon resins, two-step epoxy resins and additives.

By adopting automatic production control and packaging systems, Longcai is ensuring the quality and stability of our product range achieves industry leading standard. And with their excellent performance, **Longcester®** resins enjoy continued support from our partners from various manufacturing industries worldwide, together, we are bringing more colour to the world.

As a member of SIEF, Longcai has been certified for EU Regulation REACH, ISO9001 and ISO14001, our resins perform better and are kinder to the planet. By continuing to invest in technologies and people, together with our sister company Lingyu Powder Machinery, we hope to bring in innovative complete production solutions to our customers to get the very most from their powder coatings.

公司简介

龍彩新材料是一家以粉末涂料树脂和特殊树脂为主导的科学型公司。龍彩不断推动创新，致力于为所有合作伙伴创造可持续价值。

龍彩公司坐落于中国东海岸，拥有烟台和威海两个生产基地，总占地面积29.5万平方米。

龍彩提供**Longcester®**品牌的粉末涂料原材料解决方案，满足行业对TGIC固化、HAA固化、混合聚酯树脂、PU树脂、氟碳树脂、二步法环氧树脂和添加剂的需求。

龍彩采用自动化生产控制和包装系统，以确保产品质量和稳定性达到行业领先水平。凭借其卓越性能，**Longcester®**树脂得到了全球各行业合作伙伴的持续支持，携手为世界带来更绚烂的色彩。

作为SIEF的成员，龍彩已通过欧盟法规REACH、ISO9001和ISO14001认证，我们的树脂性能更优，更环保。通过持续研发和引进人才，我们希望与我们的姊妹公司-凌宇粉末机械有限公司一起，为客户提供不断创新的一体化生产解决方案，以满足他们对粉末涂料的最大需求。

As a main component of thermosetting powder coatings, epoxy resin has been widely applied for its good adhesive, anti-corrosion, insulating, strengthening properties. Epoxy resin is widely used in the adhesion between metal and non-metal materials, anti-corrosion coatings, insulating materials, glass fibre reinforced plastic, MDF, industrial plastic and other composite materials. Epoxy resin is playing an essential part in various industries including electronics, machinery, chemicals, aerospace, shipping, building materials and hydro powder, it has become an crucial base material for the industrial world.

Longcester® resins, with our focus on "Environment, Quality and Customers", has been widely applied in interior powder coating, epoxy powder coating and functional powder coatings. Together with Longcester® polyester resins, Longcester® epoxy resins has been well received by our customers from over 50 countries and regions around the world, providing customers with complete solutions for powder coating.

环氧树脂作为热固性粉末涂料的主要成分，具有良好粘结、耐腐蚀、绝缘、高强度等性能，已被广泛应用于多种金属与非金属材料的粘结、耐腐蚀涂料、电气绝缘材料、玻璃钢、MDF以及工程塑料等复合材料的制造。在电子、电气、机械制造、化工防腐、航空航天、船舶运输、化学建材、水利电力及其他许多工业领域中起着重要的作用，已成为各工业领域中不可缺少的基础材料。

龍彩环氧树脂秉承绿色环保、品质第一、客户至上的企业宗旨，广泛应用于户内粉末涂料、纯环氧粉末涂料，功能性粉末涂料，深得客户好评。目前与龍彩聚酯一起，远销全球50多个国家和地区，为客户提供完整的粉末涂料解决方案。
